Institute For Enterprise Architecture Developments (IFEAD)

IFEAD is a non-profit research and information exchange organization working on the future state of Enterprise Architecture & Enterprise Portfolio Management. Founded in 2001 by our president Jaap Schekkerman, IFEAD is today one of the most important sources of information related to (Extended) Enterprise Architecture & Enterprise Portfolio Management and working in close relationship with universities and other research organizations.

Several publications and books are developed under the auspices of IFEAD and brought in the public arena.

For more information about the activities of IFEAD, please visit our website at <http://www.enterprise-architecture.info> where you can find several articles, references, standards and methods supporting the Enterprise Architect as well as Best Practices and News about related topics. On our new website <http://www.e2pm.info> you can find all information about Enterprise Portfolio Management

Our logo presents the areas of people, process, business & technology, while the core reflects at a holistic way the natural cohesion of **Business & Technology**.
